

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

JUNE 2010

### ANNOUNCEMENTS AND UPCOMING EVENTS

**Harding Township's Memorial Day Parade and Ceremony were held on May 31, Fred and Walker Kirby** were honored as Distinguished Citizens of the Year during the Memorial Day celebration sponsored by the Harding Township Civic Association. Civic Association President Steve Balog presented the award to Mrs. Kirby during Memorial Day ceremonies on Monday, May 31. Fred Kirby was recovering from surgery and could not attend, but was represented by his son Jeff Kirby. The citation gave equal praise to the Kirbys for a long record of diversified public service and philanthropic endeavors.

Fred Kirby, a veteran of the Navy who served in England and France during WWII, is an investor and businessman. He assumed control in 1967 of both the family business interests and the FM Kirby Foundation, a foundation created by Fred's grandfather in 1931. The Foundation has benefited many regional and local organizations, including support to First Presbyterian Church, the Great Swamp Watershed Association, the Harding Land Trust, the Harding Historical Society, the Harding Township Library, the Recreation Association, the New Vernon Volunteer Fire Department, and Harding Township as well. The land on which stands Kirby Hall, the municipal Building, was given to the Township by the Kirby Family, as was the land for Christ the King Church.

Walker Kirby has also been deeply involved in many great organizations over the years. She served on the boards of the Peck School, Drew University, Newark Academy, NJ Shakespeare Theatre and the Summit Speech School. In her volunteer work at the Seeing Eye, she started "Walker's Walkers" a program of volunteers that exercise the dogs daily and a program where visitors can tour the facility.

The winners of the essay contest, all of whom read their entries, were: **Olivia Altman** 7<sup>th</sup> grade; **Noah French**, 6<sup>th</sup> grade; **Drake Mead**, 4<sup>th</sup> grade- and **Brock Bierly**, 2<sup>nd</sup> grade.

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

### THE LIBRARY

**Our doors are open...come on over!** New hours: Monday, Wednesday, Friday from 10-4, Tuesday and Thursday from 10-8 [July and August we close at 4], and Saturday from 10-2. If you have time and talent to share, there is an information sheet displayed in the Library of the many **Volunteer Opportunities** on offer, from assisting with children's activities, to designing a newsletter (attention layout artists!), to sorting donated books and keeping the sale shelves stocked, to taking pictures of Library events...and lots more. We will welcome your help!

**Children's Summer Events: The Summer Reading Club, *Make a Splash at Your Library***, has started, sign up at the library! **Mondays: 10 a.m. Toddler Time** ~ a program for children ages 1-3. We will read short stories, sing songs, and create a theme-related craft. **3 p.m. School Aged Children** ~ a program for children in grades 2 & 3. We will read longer stories and create a theme-related craft.

**Wednesdays: 10 a.m. Singing Babies** ~ a program designed for infants through two-year-olds. We will sing songs and do finger plays. **1 p.m. Mother Goose** ~ a program for children ages 4-6. We will read stories, play games, and create a theme-related craft. **Summer Mondays, story themes:** June 21, *Luau*; July 5, *An Ocean of Fun*; July 12, *Adventures of the High Seas: Pirates*; July 19, *Fun on the Beach*; July 26, *At the Pond*; August 2, *Thunderstorms*; August 9, *Camping*; August 16, *Ice Cream*; August 23, *Fruit*; August 30, *Back to School*.

Keep up to date via the Web: [hardinglibrary.org](http://hardinglibrary.org). Call us at 973-267-BOOK (2665).

### WILDLIFE MANAGEMENT COMMITTEE

***Coyotes and Foxes and Bears Oh my!*** Coyotes and foxes and bears have been sighted in the township with increasing frequency. Both bears and coyotes are of particular concern. Prevention is the best method for controlling damage, such as removing potential food sources such as garbage and birdfeed. Also, pets should not be fed outdoors, nor should they be left outdoors overnight. Sightings alone should not cause alarm but are a signal to take preventive measures.

Black bears should never be fed (Note: in New Jersey, it's illegal to feed black bears, and violators face a penalty of up to \$1,000 for each offense) or approached.

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

If a bear comes into your yard, make the bear aware of your presence. Do not feed the bear! Make sure the bear has an escape route. Yell, bang pots and pans or use an air horn to scare the bear away.

Significant damage, nuisance coyotes or aggressive and non-yielding bears can be reported to the NJ state Wildlife Services Section at (908) 735-8793, the Harding Police Department at (973) 455 0500 and the NJ Division of Fish and Wildlife at (877) 927-6337. It is very important to report these incidents as the Division will take action only if there is a history.

### **Notes from Your First Aid Squad (NVVFAS)**

Summer is nearly upon us, and after a relatively hard winter, we are all eager to be outside and get our vitamin D from the sun. Before it really turns hot, it is well to stock up on sun screen preferably SPF30. Check the label of whatever you buy to make sure it provides protection from both UVA and UVB rays. Avoid intentional sun exposure, such as a tanning studio or lying in the sun. There is little to be gained from buying a lotion with a power greater than SPF50 (but never less than 15). Inevitably, a SPF number higher than 50 gives an unwarranted feeling of security against the sun, but it doesn't necessarily block the more deeply penetrating ultraviolet A radiation, or so-called aging rays. What matters is that you apply sunscreen **generously**, even on cloudy days, at least every two hours and after swimming. Enjoy the sun but avoid sunburn and excessive exposure by using common sense and appropriately applied sun block. And don't forget a hat with a brim and sunglasses.

Have you considered joining the New Vernon Volunteer First Aid Squad? We think you will find it one of the most rewarding volunteer activities you will ever do. Please call Sue Sameth at 973-267-0552 or Rachel Matthews at 973-425-0343 for details.

### **GLEN ALPIN CONSERVANCY OPEN HOUSE**

Ever wonder what's inside Glen Alpin- hand painted murals, stained glass windows dating back to 1904, ornate fireplaces? The Glen Alpin Conservancy will be

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

holding an Open House at Glen Alpin for the public to come out and view the house on **Sunday, September 12 from 2pm to 4 pm.**

**HARDING ALLIANCE AGAINST SUBSTANCE ABUSE** The mission of Harding Alliance is to provide education and resources to promote healthy decision-making and to avoid substance abuse and risky behaviors. The fall season meeting is **Wednesday, Sept. 15 at 8:45 AM** in the Guidance Office of Harding Township School. More information, including our meeting schedule and useful links to a variety of resources, can be found at <http://hardingalliance.hardingnj.org>. If you have any questions or comments, please contact Judy Malloy, Chairperson, at [judymotown@comcast.net](mailto:judymotown@comcast.net).

### **TOWNSHIP NEWS:**

**PRIMARY ELECTION RESULTS:** Incumbent Township Committeeman **Nicholas Platt**, received 343 votes in the recent primary. There are no Democratic challengers in the fall election. Platt was appointed earlier in the year to fill the vacancy after James Rybka resigned.

### **REPLACEMENT OF THE ROUTE 202 PASSAIC RIVER BRIDGE**

In April, a meeting was held at the request of the NJ Department of Transportation with officials from Harding, Morris, and Bernards Townships, to brief the local officials on the analysis of the various options that had been developed at the prior meeting for the replacement of the Route 202 Passaic River bridge. In attendance from Harding were Marshall Bartlett (current Chair of the Harding Township Committee), Louis Lanzerotti (immediate past Chair), Amanda Macchia (Deputy Township Clerk), Paul Fox (Township engineer) and Kevin Gaffney (Township police chief).

The DoT presented seven options that they had down-selected after cost and feasibility analysis from the set of some fifteen that were developed previously. Much discussion ensued as to selecting a final option to proceed forward with. A caucus by the Harding attendees transmitted the conclusion that the officials present could not agree with the DoT on a single plan until local residents and business owners were informed and opinions listened to. All officials from the three attending

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

townships agreed with this.

The plan forward is for DoT to come to a public meeting in Harding, likely in June, to present the two options down-selected from the seven. In as much as the DoT devoted much attention to the environmental issues related to the options (in addition to obvious issues of cost), the township officials in attendance requested that a high level official from the NJ Department of Environmental Protection (DEP) also attend in order to engage in the discussions with township officials and the public. The DoT expressed ambivalence as to whether such an official would be willing to attend. The Harding Township Committee will continue to keep everyone informed. DoT also indicated that it would inform interested parties "within a certain distance of the project" of the meeting.

### **Township Committee Meeting- May 17 School budget**

Approximately 100 people attended the special meeting of the Township Committee with people overflowing into the hall.

Lou Lanzerotti from the Township Committee began with a slide presentation outlining the number of students in the school, voter turnout since the last defeated budget (2002), the operating and debt service budget, the larger expenses in the budget with their percentages, and a breakdown of salaries for administrative, certified school workers (non-union), and teachers (union). A copy of the presentation is posted on the town site at [www.hardingnj.org](http://www.hardingnj.org). The median salary for the certified school workers which include custodial staff, cafeteria staff, etc. is \$30,000. Some of these workers are part-time. Their salary increases ranged from 3%-5%. The median salary for the teachers (this included two secretaries that are in the union) is \$56,000. Their raises ranged from 0%-8% with the average at about 5.2%.

Norb Gambuzza then gave an update from the Board of Education. Since the last public meeting, the Superintendent, the custodians, and the administrative staff have agreed to forgo their raises. The teachers union agreed the teachers would contribute 1.5% toward their medical. This amounted to a \$130,000 reduction. An additional \$27,000 was also found for a total reduction of \$157,000. Remember

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

that in order to get to a 0% increase, \$230,000 needed to be cut from the budget. This left \$73,000. The Township Committee reiterated their stand on a 0% budget increase based upon the fact that the municipal budget had a 0% increase. The Township Committee at this point will recommend cuts to the Board of Education and give them a dollar figure for the budget. The Board of Education will have the ultimate decision as to where to cut.

### **What the people had to say:**

From the people who spoke at the meeting, most were in favor of taking the cuts offered by the Board of Education and asked that the Township Committee make up the \$73,000 difference and not go all the way to the 0% increase. One resident stated that with the low voter turnout and the fact that the budget was defeated by only 9 votes had all of the people in the room voted, the vote may well have turned out differently. She encouraged the citizens not to let that happen next year.

The final decision on the school budget was for no increase; this was presented to the state on May 19.

### **Board of Education Meeting- June 7, 2010**

#### **Budget Cuts**

As reported above, on May 18 the Township Committee voted no increase for the school budget for the upcoming school year. That meant the proposed budget had to be trimmed by \$229,306. The Township Committee made recommendations in the areas they thought should be trimmed.

Dr Purnell agreed with a majority of their recommendations; however there were 5 items that Dr. Purnell thought should not be cut. Those items included the removal of the Business Administrator's assistant, the removal of the Basic/Remedial Skill Instruction, the removal of after school co/extra curricula activities, the removal of coaches, and the use of \$26K from the Fund Balance.

Dr. Purnell felt that none of the items that affected students should be cut. In addition he did not want to use the money from the Fund Balance as he viewed that as borrowing against their future. To address the difference presented other areas to cut.

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

- Replace a retiring science teacher with a lower grade, but still highly qualified, experienced teacher.
- Eliminate a middle school teaching position through scheduling changes.
- Elimination of an aide for special education through scheduling changes.
- Eliminate the technology upgrade for 8 printers, 5 laptops, and a server. It was felt that the school could apply for grants for this.
- A further reduction in the supplies budget
- Reduction of the Reading Street program. Savings were realized since one 3<sup>rd</sup> grade class was being eliminated and the school could save \$2K by ordering the program on-line.
- Transportation costs for the subscription bus service would be raised by \$50 for the first child. There is no increase for additional children from the same household

These reductions equaled the amount proposed by the Township Committee. To make up the remainder of the \$229K, there will be a wage freeze on administrative and custodial salaries, and the budget for the new Principal was set at \$90K .

### **Summer Projects**

Summer projects on the school include work on the roof, upgrading of 4 first floor bathrooms, replacement of the outside door, upgrades to the electronic access, and additional preventative maintenance.

### **Dr. Purnell's Trip to Kenya**

Dr. Purnell gave a review of his trip to Kenya to assist doctors providing free medical care to the local population. He used his vacation days to accompany his brother, who is a doctor, to assist with the administrative duties while the doctors treated the patients. Because there had been a lot of rain, there was a malaria outbreak in addition to the day to day problems the local population faces with lack of medical care. So many people came that some had to be turned away.

### **County Evaluation of Professional Development Plan**

Results of Harding's Professional Development Plan; in the 6 areas ranked, Harding hit the target in 4 out of the 6. In the other 2 Harding was ranked acceptable.

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

**NJEA and Race to the Top** The local teacher's union and the NJEA are withdrawing support for this state program, based upon the changes that were made by Governor Christie after the agreement.

### **HARDING TOWNSHIP BOARD OF EDUCATION , May 10 meeting**

Approximately 30 residents of Harding Township came to the Board of Education meeting. The results of a feasibility study was presented that examined the educational, financial and ethnic impact of the consolidation of the Harding Township School District with one of three neighboring school districts. These examined districts were Madison, Chatham, and Bernards Township. This study can be found at <http://www.hardingtwp.org/hardingtwp/site/default.asp>

In conclusion of the study it stated that it appears that the risk of limiting Harding's ability to govern its school operation and facilities, while increasing unknown financial uncertainty far outweighs any educational gain for the limited number of Harding students. It is recommended by this study that Harding Township School District maintain its present independent operation and not pursue a K-12 consolidation.

### **Planning Board May 24, 2010**

Roll Call: David Dietz and Joe Schliefer absent.

#### Announcements/Reports/Presentations

Cindy Phillips reminded members to submit financial disclosure statements. Mrs. Olcott reported receiving the well head protection ordinance from the MUA and wondered if someone could explain the ordinance at a future meeting. Mr. Saulnier reported that the build out committee had met on April 21<sup>st</sup> to discuss the status of the township in the county waste water management plan which is updated every six years and needs to be checked to see whether there is any discrepancy between township zoning and the build out analysis. There was some discussion about

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

whether park land should be excluded from the nitrate dilution analysis. If excluded, the build out would exceed the carrying capacity of the land, but the county indicated that the excess is de minimus and that Harding would not need to redo zoning. Mr. Saulnier did indicate that a closer analysis considering items such as steep slopes, setbacks and easements would need to be performed to determine the exact number of buildable lots. Mrs. Moriarty reported that she had not yet attended a HOST meeting.

### Discussion

Bill Keefauver then gave his annual report on the proceedings of the Board of Adjustment. Deer fencing was the first item discussed. There was some thought of raising the allowable height to nine feet from seven but this was rejected. Lighting continues to be an issue with some newer houses going overboard. Lot coverage issues are considered, and the Board will grant requests for greater than 10% where applicant provides solutions such as dry wells to deal with infiltration; however, the Board will usually not go higher than 12%. This sometimes occurs with one story houses since the bulk of the house is less than a fully conforming two-story house.

Questions of drainage come up, but the Board can only make approvals subject to other approvals such as the township engineer's. He noted that nonconforming structures can be repaired or restored, but not demolished. The Board will allow applicants to try to restore (as in case of fire), but if they run into problems, all bets are off. He mentioned that the Historic Preservation Commission functions in an advisory capacity, but that but most applicants will work with the Commission. Mr. Newlin asked about the approval management issue, and was told that is was the zoning officer's responsibility to check to see if required things (such as screening) were done.

The Board then discussed three ordinances referred from the Township Committee. TC-08-10 dealt with soil erosion and sediment control; the state has asked for recodification, and there are no changes of substance. TC-09-10 dealt with speed limits and led to a discussion on how signs should be used on Township roads. TC-10-10 dealt with the ability of the Board of Adjustment can grant variance extensions. The fee for variance extensions had been eliminated which called into question the Board's ability to grant extensions. The ordinance also raised the fine

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

for zoning violations from \$200 to \$1250 (according to the state max). All three ordinances were approved.

The Board then discussed the draft fertilizer ordinance. Mr. Newlin explained that the Township was required by the state to adopt the model ordinance which limits the use of phosphates. Several issues where the ordinance might differ from the model were discussed, for example whether commercial landscapers should be required to register with the Township and pay a fee (conclusion: no), or what constitutes a body of water, or how buffer areas are affected. Mrs. Kimball will take the comments and prepare an ordinance for consideration at the June meeting  
Resolution: PB-02-10, **Applicant James and Dawn Didden**, Block 4, Lot 56, 12 Hartley Farms Road, Minor Site Plan, approved by voice vote.

Applications: PB-05-09, **Applicant Hartington J Trust**, Block 7, Lot 1.01, 1.02 and 4.02, Griffin Lane and Van Buren Road, Preliminary and Final Major Subdivision, Action: Continue Public Hearing. The applicant's attorney indicated that the plan was being refined, and asked to carry discussion to the June meeting.

PB-03-10, **Applicant Blanchard Partners LP**, Block 49, Lot 12, 55 Glen Alpin Road, Preliminary and Final Major Subdivision, Action: Set Site Inspection. The applicant's engineer explained that this was a new project and that variances would be needed. The current lot was over 24 acres and would be subdivided into four lots, one of which would contain the existing house. Two of the new lots would be flag lots. Set back variances would be needed for existing structures (play house and solar panels). There was also a proposal to change a conservation easement which had been recorded as a "rough guess" that could be changed when the actual wetlands had been more precisely delineated. An LOI had been approved.

### HISTORIC PRESERVATION COMMISSION, May 2010

#### CONCEPT REVIEW:

- **Carifa/Conine**, 140 Lees Hill Road, Block 47, Lot 9.01. The applicants came to the HPC for a concept review prior to applying for building permits. This is

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

a non-contributing property in the Logansville District. The current home is not visible from the street due in part to its site on the property and general topography of property which slopes away from the street and the extensive existing vegetation along Lee's Hill Road. Although the expansion will include a street-facing 3-car garage which is normally a design element that the HPC does not favor, the enlarged home will still not be visible from Lee's Hill Road so there is no impact on streetscape. The HPC indicated that, as long as the applicant does not change their plans, the HPC does not need further review when the applicant applies for a construction permit.

### BOARD OF ADJUSTMENT REFERRALS:

- **Janice Rizzo, 5 Willow Acres Lane, Block 25, Lot 18.** As the property is not in an historic district and the proposed construction does not impact streetscape, the Commission has no comment on this proposal to construct a swimming pool to the rear of this non-conforming property.
- **Chris and Jennifer Travers, Block 9, Lot 24.** As the property is not in an historic district and the proposed construction does not impact streetscape. Although the home may be seen from Dickson's Mill Road in the winter, the Commission has no comment on this proposal to construct two small 1 story additions to this residence.

### PLANNING BOARD REFERRAL

- **Blanchard Partners, LP, 53 Glen Alpin Road, block 49, Lot 12.** The Commission reviewed plans to subdivide the existing 24.1 acre lot in the RR zone. The proposal divides this lot into 4 parcels, of 6.46, 6.19, 6.0, and 5.0 acres. The HPC's primary stated concerns were to maintain Harding's rural streetscape and to ensure that the lots are created in a way that will easily allow residences to be built without variances. Using these criteria, the Commission identified the two smallest lots as problematic because of their shape. In the case of proposed lot 12.03, the Commission noted that the triangular building envelope suggests that only ½ of the lot is buildable and that the most buildable portion of the envelope was just within 100' setback and an unlikely spot for a proposed home to be sited. In the case of proposed lot 12.02, the lot, the building lot is long and narrow and the

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

Commission thought the he new owner of this lot would have limited flexibility regarding the orientation of new construction. The Commission agreed that its response to the Planning Board should urge the Board to consider “buildability” and “streetscape” in reviewing this application.

### CONSTRUCTION REFERRALS

- **Randazzo, 159 Sand Spring Road, Block 24, Lot 11.** This application was referred again to the HPC in response to its request to review final plans as submitted to the construction office. In a letter to the HPC dated April 20, 2010, Mr. Randazzo informed the HPC that he did not want to make further changes to his plans. The Commission had no further comment.
- **Ponek/Dioda, 518 Van Beuren Road, Block 6, Lot 9.01 Demolition Referral.** The contract purchaser and her realtor appeared before the Commission to discuss their plans to demolish the existing home as well as the accessory structures on the property. They were informed that a previous conditional Certificate of Appropriateness for demolition on this property expired without the conditions being met and the Certificate of Appropriateness for demolition expired in 2009 and that, at the time, SHPO has raised questions relating to the historic context of the property as it related to elements of the nomination of the Silver Lake District to the Historic Register. The applicants indicated that previous issues raised with SHPO and the DEP had been resolved and wetlands delineations had been approved, but were not yet recorded in Harding files. The HPC explained that it was aware that the conditions that made us think the current residence might be saved as an accessory structure three years ago might have changed and that we would have to see the property again to determine whether there was anything left to save or rehabilitate.  
The Commission reiterated its understanding that it was unlikely that the purchaser would start with the footprint of the existing house and expand the foundation to accommodate a new home of desired size.  
The Commission also reiterated that its goal was not to delay demolition for the maximum amount of time but to understand what the purchaser intended

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

to build, and to keep an open dialogue with the applicant to the point where our suggestions had been explored and/or building plans were finalized. It was agreed that the next step is for the purchaser to come back to the HPC with their design ideas and a site plan specific to their building plans.

- **John McFayden/Tom Luciano, 147 Pleasantville Road, Block 14, Lot 3.01**  
The applicant presented revised plans for a new residence previously approved by the Board of Adjustment. The new contract purchaser desires a smaller house than approved. The applicant presented revisions to the plans previous approved by the Board of Adjustment and supported by the HPC. The new plans reduce the space of the proposed home by about 1,000 sf., further reducing the massing and scale of the house, yet consistent with our previous recommendations. The only recommendation made by the Commission was to change the roof-line over the front door to be consistent with the proposed porch roof style and pitch (shed roof) and to modify the columns. The applicants indicated they will consider this requested changes.

### DISCUSSION

- The commission discussed a request from the Township Committee to have the HPC represented on the recently formed Parks Committee being chaired by Tom DePoortere. Given that Mr. DePoortere is the Planning Board liaison to the HPC, it was decided that further representation on the committee was unnecessary. This will be communicated to the Township Committee by Maureen Soter.
- Wendy Montgomery, Board of Adjustment liaison, reported on the status of to applications that involved contributing properties in historic districts – the Swift application for new construction (Pleasantville Road, Green Village District) and the Howard application to rebuild a historic accessory structure previously damaged by fire. The Board of Adjustment approved variances related to the Swift application. The Board of Adjustment gave an interpretation, based on the assumption of the veracity of the applicant's testimony, that the non-conforming structure could be rebuilt because it was not totally destroyed.

# Harding Township Civic Association

## THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS

**BOARD OF ADJUSTMENT, no report**  
**Harding Open Space Trust, no report**

### **Civic Association News and Announcements**

**Civic Association:** The DEADLINE FOR THE next issue OF THE THUMBNAIL is **SEPTEMBER 3** (the September issue will be out after Labor Day). Current and past issues of Thumbnail, as well as the Directory are also on our Website: <http://www.hardingcivic.org>. Send questions or comments about Thumbnail to editor, **email address: [hesnaj@verizon.net](mailto:hesnaj@verizon.net)**, or the Harding Township Civic Association, PO Box 72, New Vernon, NJ 07976.

Although Thumbnail is not published again until September, the Civic Association will continue to update its website, [www.hardingcivic.org](http://www.hardingcivic.org), over the summer, if you send in your notices. We will post events and announcements sent to our e-mail address: [submissions@hardingcivic.org](mailto:submissions@hardingcivic.org).

### **TOWNSHIP RECYCLING**

**The Saturday summer recycling dates are June 19, July 10, July 24, August 14 and 28, and Sept 11. The scheduled recycling date of Saturday Sept. 24 is changed to Saturday Oct 2, due to conflict with the Fire Dept auction.**

**Commingled Recyclables:** consists of all aluminum and tin cans, glass bottles, and only plastic bottles and containers with the Recycling symbol, and #1 or #2. Try to crush plastic bottle to conserve space. Please remember no plastic or paper bags.

**Commingled Mixed Paper recycling;** consists of all paper, cardboard, newspaper, office paper, magazines, and books. Please put loose or shredded paper in paper bag. Please flatten all boxes or fill with other paper products. **Other accepted items;** Batteries; automotive (car) and household (rechargeable accepted); Computers and

# Harding Township Civic Association

## *THUMBNAIL ACCOUNTS OF CIVIC AFFAIRS*

all related peripherals, i.e. printers and monitors; Automotive and light truck tires, (on or off rim) and Propane tanks (BBQ size only) **The Hours of operation are every Wednesday** from 7AM. to noon (7– 9AM self service); and every other **Saturday: 9AM to noon.**
